SKILLS

- **Languages**: Python, C++, JavaScript
- **Web Technologies**: HTML and CSS
- **Tools/Platforms**: FTK imager, Wireshark, Nmap, Metasploit, Linux & MacOS, MySQL, Figma, Canva,
- **Soft Skills**: Analytical Thinking, Collaboration, Leadership & Quick Learning,Goal Oriented

PROJECT

SECURE VAULT -AI BASED SECURITY DECOY FILE SYSTEM | GitHub **Jan 2026**

- Engineered an AI-driven secure vault system that safeguards sensitive files using dynamic decoy document generation to mislead unauthorized access attempts.
- Designed and enforced robust authentication mechanisms with advanced password validation and JWT-based session management, reducing unauthorized access risks by 40%.
- Integrated file signature verification and threat detection logic to identify suspicious file tampering in real time.
- **Tech Stack:** JavaScript, Browser API

SAFE HER – Women Safety Tracking Website | GitHub **Dec 2025**

- Built a real-time women safety tracking platform enabling continuous GPS-based live location monitoring with up to 95% accuracy.
- Structured the application using Object-Oriented JavaScript concepts to ensure scalability and long-term maintainability.
- Established automated location refresh cycles with secure API communication for uninterrupted tracking.
- **Tech Stack:** HTML, CSS, JavaScript, Geolocation API

PASSWORD STRENGTH ANALYSER (Python, Linux, Regex) | GitHub **Oct 2025**

- Developed a real-time password strength evaluation tool leveraging Regex-based pattern detection and entropy-based scoring techniques.
- Automated pattern recognition to detect weak credentials and common vulnerabilities.
- Optimized execution efficiency on Linux environments for lightweight and fast performance.
- **Tech Stack**: Python, Linux, Regex

TRAINING

Coding Spoon Platform

Data Structure and Algorithm **Jun 24 - Aug 24**

- Tackled 250+ advanced DSA challenges across LeetCode and GeeksforGeeks, improving logic precision by 30%.
- Devised a C++ lodging system curating invoices, guest dossiers, and reservations—60% optimized.
- Enhanced algorithmic fluency, decreasing problem-solving time from 25 to 15 minutes (40% faster).

CERTIFICATES

- Data Analyst - SAP Analytics Cloud | SAP — Jan 2026
- Applied Generative AI Certification | Infosys Springboard — Dec 2025
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate | Oracle — Jul 2025
- Cloud Computing Certification | IIT Kharagpur, NPTEL — Aug 2025
- CompTIA LINUX + | CYBRARY — Jun 2025

ACHIVEMENTS

- Code forces Expert, Contest Rating: 1366, ranked in the top percentage of global participants.
- Leet Code Contest Rating: 1463, Mastered over 133 algorithmic problems.
- Geeks for Geeks Contributors Addressed 228+ Data Structures and Algorithms problems.
- Earned the NPTEL Silver Elite Badge in Cyber Security, ranking in the top percentage of candidates.

EDUCATION

- **Lovely Professional University** — Punjab, India
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 7.02*** — *Since August 2022*
- **Usha Gram Girl's Hight Secondary School** — Asansol, West Bengal
  Intermediate; ***Percentage: 67%*** — *April 2020 - June 2022*
- **Usha Gram Girl's Hight Secondary School** — Asansol, West Bengal
  Matriculation; ***Percentage: 83%*** — *April 2019 - March 2020*
